REPUBLIC
RESTORATION SYSTEMS

TREMCO

wall restoration

Republic Restoration Systems by Tremco offers a unique wall coating restoration system to protect, revitalize and waterproof a variety of wall substrates from masonry walls to metal to stucco.

- BRIDGE HAIRLINE CRACKS
- STOP WATER FROM ENTERING YOUR BUILDING
- RESTORE YOUR EXTERIOR WALLS TO THEIR ORIGINAL BEAUTY

WALL PROBLEMS

FREE WALL INSPECTIONS

Republic Restoration Systems by Tremco offers no-obligation wall inspections to provide you the most beneficial solution to your particular wall restoration need.

Your wall inspection will cover two main areas — the condition of the wall and the details. Special attention will be given to details such as the sealants at window sills, frames, trim and fascia.

chalking

flaking or peeling paint

cracks - hairline or larger

spalling and erosion

efflorescence

mildew or fungus

loose or missing mortar

Solution

Republic Restoration Systems by Tremco offers a unique fibrated acrylic

coating, Solargard Hy-Build, to restore your aging walls. Applied at 24 to

32 wet mils, more than 3 times the mils as regular paint, it offers the

waterproofing protection you desire in one-coat. In addition, the fibers

in the formula offer elasticity to allow for normal building movement

while bridging hairline cracks. Developed in 1965, Solargard Hy-Build has

a proven track record for performance, which is why we offer a 10-year

warranty. Tremco, an ISO 9001: 2008 certified company, provides the

strictest quality controls to ensure product consistency and performance.

STRESS-FREE APPLICATION

Selecting a Contractor.

Throughout the United States and Canada, Tremco works with a select group of contractors who are highly trained and experienced in installing all products. Your Tremco representative can provide you with names of contractors in your area, taking the guesswork out of selecting a quality contractor.

LONG-TERM PERFORMANCE

Republic Restoration Systems by Tremco offers a variety of warranties to ensure the performance of your wall restoration coating system. For all material and labor warranted coating projects, job site inspections are provided to ensure that your system will provide you with years of quality service life.

SOLARGARD HY-BUILD ACRYLIC COATING

Acrylic Wall Coating System

A high-solids, fibrated acrylic coating bridges small imperfections in the wall surface and provides a monolithic coat of protection.

- Reduces energy costs with its highly reflective white surface
- High film build bridges small gaps
- Elastomeric quality allows the coating to move with the wall
- 10-year warranty available ensures quality
- One-coat application reduces installation costs
- Available in white and 12 standard pastel colors
- Custom colors available upon request

We provide products and services for roof and wall restoration under the brand names of ALPHAGUARD®, ALUMANATION® 301, ECOLASTIC®, GEOGARD®, ICE, ROCK-IT®, SOLARGARD®, and TREMLASTIC®. Our products offer long-term performance and energy savings to ensure that customers have the right solution to meet their specific restoration needs. Tremco has been a leader in the roof coating and restoration industry since 1928.

Republic Restoration Systems by Tremco offers solutions for:

- Built-Up Roofs/Modified Bitumen Roofs
- Weathered Single Ply Roofs
- Metal Roofs
- Foam Roofs
- Concrete Roofs
- Walls

**REPUBLIC RESTORATION SYSTEMS BY TREMCO
SUPPORT SUSTAINABILITY**

Restoring roofs has been at the forefront of our philosophy for over 80 years. This positions our reflective roof surfaces to help today's customers meet their sustainability goals by extending the life cycles of buildings worldwide while helping lower energy costs.

Republic Restoration Systems by Tremco helps meet sustainability goals because:

- They prolong the service life of structures for years
- Coatings are cost-effective over a second roofing layer, complying with building codes and postponing replacement for years
- There's no tear off, which eliminates landfill issues and fees and does not disrupt building occupants
- Reflectivity reduces energy consumption, the strain on HVAC systems, and a building's carbon footprint
- The Urban Heat Island Index is lowered, benefiting everyone
