

TremSafe™ Hatch Operator

Roof Hatch Operating Mechanism

FEATURES

- Workers always have two hands for the ladder
- When open, the hatch operator extends a safety handle out for ease and safety of getting out and back into the hatch
- Hatch lock feature that prevents the hatch from closing while workers are on the roof

BENEFITS

- No opening and closing roof hatches at the top of ladders
- Bolt-on system that easily attaches to most OSHA compliant standard fixed ladders
- Reduces risk and allows for increased security

DESCRIPTION

The TremSafe™ Hatch Operator is a floor-level operating mechanism that allows users to lock and unlock roof hatches as well as open and close roof hatches before climbing the ladder.

BASIC USES

To open and close hatches on the roof from the ground level and not while elevated on a ladder

COLOR

Black and yellow

APPLICATION

Bolt on application to standard fixed ladder
